<p>Lizzy had been out of the program for a week. You thought she had a cold, but when her father brought her to your program this morning he informed you that she had been diagnosed with Whooping Cough / Pertussis. She had responded to treatment, and her doctor gave the OK to return.</p>		
<p>Jamal fell from the swing, bumping his head so hard a 'goose egg' appeared on his forehead. It slowed him down a bit, but he said he was ready to go in for lunch.</p>		
<p>Gloria, a prospective parent, is touring your program, asking questions about steps taken to keep children healthy. She asks if immunizations are required of children. Specifically what is expected?</p>
