

Module 4: Celebrating Child Growth

Principles

- P-2.1---We shall not deny family members access to their child's classroom or program setting unless access is denied by court order or other legal restriction.
- P-2.2---We shall inform families of program philosophy, policies, curriculum, assessment system, cultural practices, and personnel qualifications, and explain why we teach as we do—which should be in accordance with our ethical responsibilities to children (see Section 1).
- P-2.3---We shall inform families of and, when appropriate, involve them in policy decisions.
- P-2.4---We shall ensure that the family is involved in significant decisions affecting their child.
- P-2.5---We shall make every effort to communicate effectively with all families in a language that they understand. We shall use community resources for translation and interpretation when we do not have sufficient resources in our own program.
- P-2.6---As families share information with us about their children and families, we shall ensure that families' input is an important contribution to the planning and implementation of the program.
- P-2.7---We shall inform families about the nature and purpose of the program's child assessments and how data about their child will be used.
- P-2.8---We shall treat child assessment information confidentially and share this information only when there is a legitimate need for it.
- P-2.9---We shall inform the family of injuries and incidents involving their child, of risks such as exposures to communicable diseases that might result in infection, and of occurrences that might result in emotional stress.
- P-2.10---Families shall be fully informed of any proposed research projects involving their children and shall have the opportunity to give or withhold consent without penalty. We shall not permit or participate in research that could in any way hinder education, development, or well-being of children.
- P-2.11---We shall not engage in or support exploitation of families. We shall not use our relationship with a family for private advantage or personal gain, or enter into relationships with family members that might impair our effectiveness working with their children.
- P-2.12---We shall develop written policies for the protection of confidentiality and the disclosure of children's records. These policy documents shall be made available to all program personnel and families. Disclosure of children's records beyond family members, program personnel, and consultants having an obligation of confidentiality shall require familial consent (except in cases of abuse or neglect).
- P-2.13---We shall maintain confidentiality and shall respect the family's right to privacy, refraining from disclosure of confidential information and intrusion into family life.
